Summary

Software Developer with 5 years of experience, specializing in frontend development with React, Next.js, and Vue. Strong understanding of backend technologies including Node.js, NestJS, and serverless architectures. AWS Cloud Practitioner Certified. Fluent in English and Spanish.

Experience

Bitlogic

August, 2022 – present

Software Engineer

Córdoba, Argentina

- Achieved AWS Cloud Practitioner certification, sponsored by Bitlogic through its partnership with AWS, enhancing our cloud strategy and project scalability.
- Provide guidance on front-end tooling, ensuring development efficiency and adoption of best practices across projects.
- Led two Brown Bag Meetings in 2023 and 2024, presenting industry trends and technical insights to foster team learning and collaboration.

Self-Employed

August, 2020 – present

Freelance Software Developer

Remote

Developed custom software solutions for clients across various industries, specializing in e-commerce, logistics, and IT support. Designed and deployed full-stack applications, optimized workflows, and provided technical consulting.

- Built and deployed multiple React-based online stores implementing MercadoPago for payment processing.
- Logistics System for a Coffee Shop – Developed a web-based ordering platform that allowed coffee shops to place and manage supply requests with a central delivery center.
- IT Support & Consulting – Provided technical troubleshooting, system optimization, and security audits for small businesses and individuals.

VOIP Group

June 2021 – July 2022

Full Stack Developer

Córdoba, Argentina

- Led the main product migration to Vue.js, enhancing application performance and maintainability.
- Developed a comprehensive VoIP calls and statistics monitoring dashboard for real-time call metrics analysis.
- Spearheaded CRM service development.
